

Dear Parents,

Are you looking for an activity that will allow your child to continue learning *and* have fun over the Thanksgiving break? Then check out Greg Tang's Thanksgiving Math Challenge! (thanksgiving.gregtangmath.com)

During the break, students can go to gregtangmath.com to complete the activities on the attached game board.

This is an *optional* activity. Students who can't participate will not be penalized in any way. Students who complete the challenge can earn a certificate and a chance to win a personalized signed copy of one of Greg Tang's books.

It is fine for students to get help from you or someone else if they need it. They can also move to harder or easier levels of the games to make them more or less challenging.

After your child completes the activity, just sign their sheet and send it back to school with them after the break.

Sincerely,
